Academy@Maestros Update:

Piers Adams Recorder Workshops involved over 120 children over four sessions and the Purcell School led masterclasses and workshops. We received over 50 nominations for students to join the Register for Exceptional Musical Ability. If you believe you have a student who is potentially a gifted and talented young musician between the ages of 9-14, please contact carolinewoodhouse@berkshiremaestros.org.uk.

Learn it Live! Workshops took place with nearly 300 Berkshire GCSE pupils. Exploring Rag Desh and Indian Classical Music and Handel's Water Music, pupils and teachers were treated to live professional performances of the music and spent the afternoon creating original 'fusion' compositions with visiting composers. Further workshops for GCSE and A level musicians will be planned for 2017 and in the pipeline..... exciting new plans for KS3 pupils.

Berkshire Maestros Camerata and the Berkshire Youth Guitar Orchestra spent the day preparing for a concert with partnership organisation the Dorothy Croft Trust for Young Musicians. Two Maestros trumpet students took part in a very entertaining and informative masterclass given by **Crispian Steele-Perkins**, the world-class trumpet soloist and exponent of the Baroque trumpet. Maestros' trumpeter Tom Valentine said *"As an aspiring trumpet player, who wishes to go on to music college and play professionally, I found this experience exciting and inspiring. I was given many helpful and interesting points, which will improve and further my playing, and also watching Crispian and listening to the way he performs the music was an eye-opening and amazing experience, and has given me new ways of approaching and exploring the piece. It was a very enjoyable experience."*

Ofsted – Subject Specialism

Colleagues may be aware that Ofsted has stopped producing triennial subject reports and that Robin Hammerton is no longer the subject lead for music. In the interim, Ian Middleton, National Lead for art, craft and design, will have oversight of visual and performing arts, including music. Ofsted is currently undertaking an internal review of the roles of all of its subject lead inspectors, which is expected to be completed by April 2016. In addition, Ofsted is already looking to use HMI and Ofsted inspectors in its regional structure to establish 'subject communities' across the regions and to identify inspectors who have particular interest and expertise in music education.
